

29 Years old

INTERMEDIATE

**PROJECT DIRECTOR
PROJECT MANAGEMENT**

Education

2004 : Master's Degree in Business Data Processing - University of Orléans.

2002 : Second year degree in Computer Science - University of Orléans

2000 : GCE A level mathematics, with distinction

Languages

French : native speaker

English : fluent

German : basics

COMPUTER SKILLS :

Networks and systems	Windows, Linux (multiple products)
Languages	JAVA, C/C++, JavaScript, Visual Basic, Visual Basic Applications, PHP, SQL, XML, XSL/XPATH, .NET Languages
Technologies	J2EE
Web technologies	Struts, JSP / Servlets, ASP.NET
DBMS	Oracle, SQL Server, MySQL, MS Access, IBM DB2
Analysis methods and tools	Rational ClearCase, Merise, UML
Environment of Development	.NET 3.0, TOAD, Eclipse, DBVisualizer, Visual Studio
Application servers	WebSphere, WebLogic
Graphic	Photoshop, Illustrator, 3D Studio MAX

EXPERIENCE :

Customer	Period	Mission	Tools
Management of brands and products	Since March 2011	<p>Project Director within a team which designs and develops automated test scripts in QTP for a set of web applications which allows the exchange of information between retailers and their suppliers.</p> <ul style="list-style-type: none"> • Serving as primary contact point for external needs concerning the current projects. • Managing and implementing the contract. • Implementing the reporting related to the project with the scope to continuously improve the quality. • Advising the Project Manager and finding solutions to the encountered problems. <p>Team size: 3 persons.</p>	Management

The application provides access to a number of reports mainly in the form of animated graphs, maps ... These data come from the core application developed by another development team based in Brasov.</p> <ul style="list-style-type: none"> ● Serving as primary contact point for external needs concerning the current projects. ● Managing and implementing the contract. ● Implementing the reporting related to the project with the scope to continuously improve the quality. ● Advising the Project Manager and finding solutions to the encountered problems. <p>Team size: 4 persons.</p>	Management
Coronis Systems	November 2009 - June 2011	<p>Project Director within a project for the applicative and progressive maintenance of a group of components of management software and for the management of wireless telecommunication products.</p> <ul style="list-style-type: none"> ● Managed the client relation through steering committees, action plans and proposals (technical, commercial, organizational). ● Served as primary contact point for external needs concerning the current projects. 	Management

Customer	Period	Mission	Tools
		<ul style="list-style-type: none"> • Managed and implemented the contract. • Implemented the reporting related to the project with the scope to continuously improve the quality. • Advised the Project Manager and found solutions to the encountered problems in collaboration with him. <p>Team size: 5 persons.</p>	
Pentalog High Tech	2009 - 2010	<p>Attended several trainings such as:</p> <ul style="list-style-type: none"> - CMMI training; - «People and Project Management» training. Studied the following topics: - fundamentals of project management according to projects development; - project cycle, risk management, effort (workload) estimate and management, planning, client's management, team management, communication. 	Management
Semiconductors producer	April 2008 - December 2010	<p>Project Director within a project concerning the corrective and progressive inclusive maintenance of an application which allows to analyze mobile phone messages.</p> <ul style="list-style-type: none"> • Implemented actions to improve the project management. • Ensured the project reorganization • Ensured the training of a new Project Manager. • Ensured the weekly surveillance of the service indicators. • Led the steering committees. <p>Team size: 5 persons</p>	USB
Pentalog High Tech	August 2009	<p>Led Project Manager training within Pentalog. Content of the training:</p> <ul style="list-style-type: none"> - control of the production cycle; - management of the contract and the scope of the project; - risk management; - estimation, planning and management of the requirements; - management of the relationship with the client; - leading meeting; - Team management. <p>Number of persons participating in the training:15</p>	USB
Mousset Group	October 2008 - January 2011	<p>Project Director for the TPM (Third Party Maintenance) service.</p> <ul style="list-style-type: none"> • Carried out the basic mission that takes into account the perimeter of the application. • Created a team according to the client's requirements. • Carried out the analysis of the maintained application. 	Delphi SQL Server Crystal Reports

Customer	Period	Mission	Tools
		<ul style="list-style-type: none"> • Wrote the plan of quality assurance and verified the respect of quality procedures. • Assisted the client in the choice of his priorities and in his needs. 	
Labeo	October 2008 - October 2009	<p>Project Director for a software development in a dedicated team.</p> <ul style="list-style-type: none"> • Assisted the Project Manager at the beginning of the basic mission. • Checked the respect of quality procedures. • Managed the services commercial and organizational aspects. • Organized follow-up meetings and writing reports. 	<p>Management JAVA JavaScript XML J2EE XSL/XPATH JSP / Servlets Spring Hibernate Oracle Jboss</p>
Company in the press related field	October 2008 - January 2009	<p>Project Manager for the development of an application for institutional contacts management.</p> <ul style="list-style-type: none"> • Assisted the client in the expression of his needs. • Planned and organized the developments. • Communicated with the teams from other agencies. 	<p>Management MS Access</p>
Business and Technology Consultancy Group	October 2008 - May 2009	<p>Assistant for the elaboration of responses to a large volume of inquiries.</p> <ul style="list-style-type: none"> • Implemented the response model and plan. • Organized and shared the parts to be written. • Supervised the evolution and verified the respect of stages. • Participated in information exchange meetings. • Wrote the organizational part. 	<p>MS Project MS Word</p>
CAPGEMINI	February - September 2008	<p>Recasted new technology for a services management application.</p> <ul style="list-style-type: none"> • Participated in development on the part of calculating the rights of a profile. • Carried out part of the data model. • Tested a design tool data model, attended meetings and proposed solutions to improve the productivity of the tool. 	<p>JAVA J2EE Eclipse WebLogic Rational ClearCase DBVisualizer Lido</p>
CAPGEMINI	December 2007 - January 2008	<p>Provided technical assistance for the development of a nuclear power plant test management application. Developed a communication module between Web Services and a Lotus Notes Java application.</p>	<p>JAVA Struts JSP / Servlets Eclipse Oracle Lotus Notes</p>
CAPGEMINI	December 2007 - January	<p>Organized Pick application data porting to a web application. It manages CHU radiology department data.</p>	<p>Oracle TOAD Visual Basic</p>

Customer	Period	Mission	Tools
	2008	<ul style="list-style-type: none"> • Verified data consistency of import and export formats and found solutions. • Developed macros in VBA for Word documents conversion and processed data for porting. • Installed, edited and tested the procedure starting with the old system data export by processing porting data. 	Applications MS Word
CAPGEMINI	October - November 2007	Implemented financial aid management application architecture. <ul style="list-style-type: none"> • Supervised the team developments (4 members). • Provided technical assistance for the team. 	Struts JSP / Servlets JAVA Eclipse WebSphere
Fashion industry	February - September 2007	Provided assistance for work methods and organisation efficiency of a store network sales management system, for stocks management and for e-commerce website and the management of its business process management based on services oriented architecture. <ul style="list-style-type: none"> • Managed tasks and resources. • Coordinated the project. • Communicated with the client. • Wrote functional specifications for the whole enterprise system. • Participated in applications architecture. • Participated in data modelling. • Supervised implementations. 	.NET Languages .NET 3.0 ASP.NET XAML SQL Server MySQL BPEL Wiki
CAPGEMINI	January - February 2007	Carried out a tool to feed with parameters Excel calculation sheets and to retrieve results. <ul style="list-style-type: none"> • Developed a Java module. • Checked MS Excel and OpenOffice Calc functions compatibility. • Installed Open Office in Windows and Linux, carried out scripts for starting as a service. • Wrote the documentation (installation, technical..). 	JAVA OpenOffice Eclipse Fedora
Pentalog	January - December 2006	Developed applications for dematerialising documents, entering within the BPO process. <ul style="list-style-type: none"> • Carried out the technical analysis and designed the architecture. • Proposed and installed the solutions according to the client remarks. • Assembled and deployed the applications on the production server. 	JAVA JSP / Servlets Tomcat MySQL XML XSL/XPATH JavaScript FTP Eclipse
CAPGEMINI	January 2005 - December 2006	Rebuilt in new technologies a services management application. <ul style="list-style-type: none"> • Took part to the development for the part of activities management and clients events. 	JAVA J2EE Eclipse WebLogic

Customer	Period	Mission	Tools
		<ul style="list-style-type: none"> ● Installed an algorithm for managing the conflicts between periods. ● Developed modules executed within the treatment batch. ● Tested the integration of the developments between the different teams. ● Responsible for the data persistence within the team. ● Updated the database and the model according to the specifications evolutions. ● Developed the modules for updating the data in the base (between 2 versions of the application). ● Integrated the evolutions of the persistence framework. ● Assured the Management of the Software Configuration (MSC). ● Responsible for the operations of deliver and rebase within the team. ● Coordinated the MSC operations between the different teams. ● Created the socles for the different versions and managed the code reports. 	<p>Lido Rational ClearCase DBVisualizer</p>
Pentalog	July - September 2006	<p>Project Manager within the development of the new intranet portal of Pentalog.</p> <ul style="list-style-type: none"> ● Provided the technical assistance for the developers. ● Took part to the conception of the data model. ● Carried out and followed the planning. 	<p>JAVA AJAX JavaScript Tomcat Jboss XML XSL/XPATH MySQL Eclipse</p>
Hitachi Computer Products Europe	November 2004 - January 2005	<p>Took part in the development of a tracking data collecting system for the production of RAID machines.</p> <p>The application is accessible in a web mode from fixed workstations fitted out with bar-code readers and from mobile workstations (PDA with bar-code reader, under Windows CE).</p> <ul style="list-style-type: none"> ● Carried out the design according to the functional requirements. ● Created beans in which data were stored. ● Created servlets, data control, rights and error management. ● Wrote the user documentation and technical documentation. ● Trained users. 	<p>JAVA JavaScript SQL Server Jboss Eclipse Windows</p>
Telephony Operator	September - October 2004	<p>Carried out the evolution of a WAP application for the mission management (schedule display, data entry, automatic sending of intervention sheets and estimates by fax, email).</p>	<p>JAVA XML XSL/XPATH WAP WML Oracle</p>

Customer	Period	Mission	Tools
			Tomcat Eclipse TOAD
Cellular telephone operator	June - August 2004	<p>Took part in the development of a J2EE web services application for a mobile phone operator.</p> <p>The application is made up of several modules: inquiries, parameters, statistics, processing.</p> <p>The intranet application has been developed in Java and is based on an N-architecture.</p> <ul style="list-style-type: none"> • Created data entry and search forms, as well as the inquiry pages. • Controlled the consistency between the data and the management of errors, using the Struts framework. • Created presentation beans, using "factory". • Managed the continuity of the different screens and multi pop-up. • Fixed the faults. 	JAVA J2EE EJB JSP / Servlets JavaScript XML Struts Tomcat Eclipse TOAD
Philips Eclairage	March - April 2004	<p>Created additional functionalities for an application managing automatic printing of product labels.</p>	Visual Basic Applications
Pentalog High Tech	December 2003 - February 2004	<p>Provided the architecture audit on the Pentalog applications which need to be connected to the EAI (heterogeneous applications: Access, MySql, Java...).</p> <ul style="list-style-type: none"> • Integrated an EAI in Pentalog information system. • Installed a Terminal Server to have access to the data from any point. • Realized the migration of the databases on the Terminal Server. 	Windows Open Adaptor Open JMS Visual Basic Applications MySQL XML XSL/XPATH J2EE Visual Basic Applications The Port
Pentalog High Tech	July - November 2003	<p>Developed a technical EAI study.</p> <ul style="list-style-type: none"> • Wrote technical analysis concerning the EAI development. • Created data flow on a message server. • Created methods of message sending. 	Windows Open Adaptor Open JMS MS Access MySQL XML JAVA Visual Basic XSL/XPATH J2EE Visual Basic Applications The Port
Clementz & Associés	September 2003	<p>Developed an inventory data entry application on a PDA Pocket PC.</p>	Windows ActiveSync
Université	June 2003	<p>Final study project. Developed a</p>	PHP

Customer	Period	Mission	Tools
d'Orléans		groupware: schedule, tasks, users, rights and resources management, directory. A computer engineering company bought this project.	MySQL JavaScript
Imagine l'Informatique (groupe Sodifrance)	April - June 2002	Developed an application in order to test the regression of Cobol programs. Developed an intranet site with directories, flow charts...	JAVA PHP MySQL
Croix-Rouge de Paris	July 2001	Developed an application for inventory control.	MS Access
